

# Anne Arundel County Has 7,395 Who Can Register

ANNE ARUNDEL

Race	Population	Population over 21	Registered Voters	Percentage Registered
Colored	22,594	13,736	6,341	46%
White	94,800	58,382	50,225	85%

Anne Arundel County has 13,736 colored persons 21 years of age and over. Only 6,341 of them, 47 percent, register and vote.

This means that 53 percent of the adult colored population in this county constitute the potential for a register and vote campaign.

Such a campaign should put 5,334 new voters on the county's books and bring the percentage of voters up to 85 percent of the number of colored persons over 21.

**OF THE 6,341 COLORED VOTERS** in Anne Arundel County, 2,588 are registered in

Annapolis, county seat and capital of the state.

Twenty-three percent of the registered vote in Annapolis is colored.

In the county as a whole, only 11 percent of the vote is colored.

In Annapolis' 4th ward, there are 992 colored voters and 85 white voters;

7th ward, 649 colored voters and 458 white voters.

Both 4th and 7th wards in Annapolis elect a colored City Councilman.

Once county colored voters are registered, and they register in every county district, ward and precinct, they vote

**ROS COE PARKER**  
(Alderman 4th Ward)

Alderman T. Norwood Brown, (right (Rep. 7th Ward) told the AFRO that voting lists are revised every four years and some names are lepped off.

After the last revision, the number of colored voters in the county dipped to 5,600.

A registration campaign brought the list back up to the present 6,341.

"All of us feel" Mr. Brown said, "that a campaign conducted through churches and civic organizations can bring our registration closer to its potential."

At left is Roscoe Parker, (Rep. 4th Ward).

in high percentages. In the November 6, 1956 election, 74 percent of the colored, 78 percent of the white, who registered, voted.

BY WAY OF comparison, the 5th precinct, 5th ward, Baltimore got out 96 percent of the registered vote in that same election. This 5th Baltimore precinct has 168 colored and 34 white voters registered.

By party, Anne Arundel County registration shows 40,692 Democrats, 14,979 Republicans.

In Annapolis, the colored outnumber the white Republicans. This is not true of the whole county.

By sex, there are 27,111 women voters and 29,779 male voters.

**THIS HAS** nothing to do with registration and voting; however, the county has 7,817 colored men and 5,919 colored women over 21 years of age.

This means there are 1,898 women who can have no hope of finding husbands in Anne Arundel County.

**T. NORWOOD BROWN**  
(Alderman 7th Ward)
